### Company Overview

CyberSource Corporation provides secure electronic payment and risk management solutions to organizations that process orders for goods and services over the Internet. CyberSource's payment solutions allow eCommerce merchants to accept a wide range of online payment options, from credit cards and electronic checks, to global payment options and emerging payment types. Our risk and compliance management tools address issues such as credit card fraud, online tax requirements and export controls. Our reporting and management tools help automate the flow of complex eCommerce processes, such as recurring billing and payment reconciliation. We partner with and connect to a large network of payment processors and other payment service providers to offer merchants a single source solution.

### Company History

Founded in 1994 (as Software.net), became a separate company (CyberSource) in 1997. CyberSource went public on June 23, 1999. Its ticker symbol on NASDAQ: CYBS.
